Linear LED's

Horizon Mini

HORIZON MINI offers a wide range of optics to provide incomparable control of light. HORIZON MINI flexibility of installation with multiple mounting options available makes it a perfect answer for your needs in general lighting, highlighting, surface grazing, and many other applications.

Horizon

HORIZON offers a wide range of optics, reaching up to 20 feet long throw with narrow optics, to provide incomparable control of light. HORIZON flexibility of installation with multiple mounting options available makes it a perfect answer to the specific needs of commercial, institutional and private spaces.

Streamline

STREAMLINE offers a Wide range of optics to provide incomparable control of light, reaching up to 20 feet long throw with narrow optics, perfect for wall-washing large canvas, and available in 2 dedicated light distributions to meet your specific needs.

Linear LED's

Nixe

NIXE linear LED luminaire is one of the smallest on the market, measuring only 3/8 inch – barely the width of a fountain pen. It integrates perfectly into its environment and its design, without any apparent trims or edges, makes it become almost invisible. This benefits aesthetic as well as functional values, keeping the surface even and diffusing light without interruption.

Proxi

PROXI is the latest addition to our award winning small form linear LED family. PROXI was designed to offer outstanding light performance and distribution in an almost invisible millwork detail.

Curvable Linear LED's

Streamline

FLOW COVE, specifically designed for cove lighting, offers multiple mounting options for an easy installation. Also available in flex model to fit curved walls.

Adujustable Linear LED

N

HORIZON MINI offers a wide range of optics to provide incomparable control of light. HORIZON MINI flexibility of installation with multiple mounting options available makes it a perfect answer for your needs in general lighting, highlighting, surface grazing, and many other applications.

Horizon Flex

HORIZON FLEX offers a wide range of optics, reaching up to 20 feet long throw with narrow optics, to provide incomparable control of light. HORIZON FLEX allows you on-site curving flexibility of installation which makes it a perfect answer to the specific needs of commercial, institutional and private spaces.

Horizon Mini Flex

HORIZON MINI FLEX offers a wide range of optics to provide incomparable control of light. HORIZON MINI FLEX flexibility of installation with multiple mounting options available makes it a perfect answer for your needs in general lighting, highlighting, surface grazing, and many other applications.

Adjustable Linear LED's

Horizon Contour

HORIZON CONTOUR offers a wide range of optics, reaching up to 20 feet long throw with narrow optics, to provide incomparable control of light. It can be used to reinterpret its environment with surface grazing on textured walls.

Edge

EDGE is an adjustable linear luminaire primarily used for vaulted surfaces. Its distinctive pivoting mechanism was developed to improve lighting control in atypical environments. A simple movement allows you to align, by directing all light beams together, your light perfectly perpendicular to the floor.

Track Light System

Lifeline Surface

LIFELINE SURFACE is a refined and minimalist track lighting system that can accommodate three luminaires specially designed for it, PIXIS, PIXIS FIVE and MILI. LIFELINE SURFACE track system encompasses near invisible integration, ingenious connectivity and a simplified installation.

Adjustable Linear LED

Pixis Lifeline

PIXIS™ LIFELINE model for track lighting, demonstrates once again its great versatility and easy-to-use features. Compact in design but big in light, it provides precise focus illumination in many merchandising applications. PIXIS™ LIFELINE creates accent illumination in millwork application for shelf lighting and comes alone or together with the miniature asymmetric LED linear MILI LIFELINE.

Pixis Five Lifeline

PIXIS™ FIVE LIFELINE creates accent illumination in residential, retails or museums environments and comes alone or together with the mini spot PIXIS™ LIFELINE or the miniature asymmetric linear MILI LIFELINE. Powerful and flexible, PIXIS™ FIVE LIFELINE simply connect and pivot anywhere along LIFELINE and can be repositioned unrestrictedly thereby creating and recreating personalized ambiances as you please.

Mili Lifeline

MILI LIFELINE minimalistic design lessens its presence thereby making light its foremost aspect. With 3 asymmetric light distribution options, uniform luminance, and miniaturized dimensions, MILI LIFELINE revolutionizes illumination.

Light Bridge

Adena Square

ADENA SQUARE™. Today's reference in case lighting. PATENTED and designed to be the quietest light bridge in the world, ADENA SQUARE™ perfectly conceals its light and totally eliminates undesirable glare. ADENA SQUARE™ is also uncompromising on light distribution. Its light floods the entire usable space in a display case, assuring generous coverage even when products are set onto elevating accessories, such as neckforms and risers.

Adena Round

ADENA ROUND™. Today's reference in case lighting. PATENTED and designed to be the quietest light bridge in the world, ADENA ROUND™ perfectly conceals its light and totally eliminates undesirable glare. ADENA ROUND™ is also uncompromising on light distribution. Its light floods the entire usable space in a display case, assuring generous coverage even when products are set onto elevating accessories, such as neck forms and risers.

Power Supply

Light Manager

The LIGHT MANAGER is a remotely-operated, premium, advanced power supply for architectural LED lighting systems with unique features. It is available in two constant voltage models: 24V.100W and 12V.60W with native 0-10V dimming to 1% and OFF with options to support DALI and Lutron's Ecosystem.
