VISIONZ

Description

A powerful and flexible system for all architectural spaces. Minimalist by design, the linear and accent light fixtures snap into the low voltage track providing precise, low glare lighting. The modules magnetically attach to the track and can be freely switched out without tools, giving lighting designers limitless possibilities. The system is perfect for hospitality, retail, residential, museum and gallery where furnitures move frequently.

Track Heads & Attachments

48V Zoomable Spotlight

- Single-circuit 48V systems provide fewer power feed points compared to other track systems

10W Zoomable Spotlight

- 20°~40° or 35°~60°

48V Spotlight

- Single-circuit 48V systems provide fewer power feed points compared to other track systems
