### BLACK FOSTER

Black Foster is the product that transfers the claimed effect 'The Invisible Black' to a recessed-isolated lineal luminary, also available in trimless version. If we take a closer view to the recessed model, its bezel is so thin that when lighted up, it is unperceived, offering an aesthetic of 'visual trimless'. Black Foster stands out for its refinement, its visual comfort and for almost completely hide the source of light from the human eye range.

### BLACK FOSTER MICRO

Black Foster Micro is a feat of engineering which brings the acclaimed "The Invisible Black" effect to a hyper-reduced light. Its tiny size and thin trim offer a "trimless visual" aesthetic which combines with its almost imperceptible presence as a result of its compact dimensions. Black Foster Micro is designed for general or accent lighting and can be used in projects that seek ceiling lighting that plays a minimal role.

### SHOT LIGHT

A luminaire conceived to be a small and discreet point of light in the ceiling, that hides the light source to offer maximum visual comfort. Specifically designed with an anti-glare screen and a micro-reflector, SHOT LIGHT generates a perfectly defined light beam.

### SWAP

Swap is a family of recessed LED spots that comes in 2 sizes (M, L) and two light beam directions (symmetrical or asymmetrical). The Swap range offers a very extensive variety of colour options, luminous flux, colour temperatures, chromatic reproduction, sealing and dimming protocols. Minimalist design and easy fitting make it an unbeatable offer.

### LEX

As the location of its LED is set back, Lex achieves great visual comfort. Its matte finish shade fosters this aspect and offers elegant aesthetics.

### DEEP

DEEP is an LED downlight for general lighting functions designed with a recessed diffuser which considerably reduces ceiling brightness.

### DROP

When lit, the lighting of Drop produces an effect of erasing visually the rims of the fitting, creating the illusion of illumination which resembles that of a natural skylight.

### STRAM

A recessed downlight with one bezel, with marked presence. In the Prismatic version you will discover the attractive and efficient effect of its diffuser's light waves which, in addition, reduces the UGR.

### MIX

Mix is an essential downlight for general lighting applications. A classic, taken to the LED vanguard, which sums up all the quality values of our best products and a wide range of options.

### MADISON

A squared recessed downlight in which the narrowness and the reduced width of its frame are the differentiating hallmarks of this elegant luminaire.

### QUAD

The elegance of a squared perimeter downlight combined with the easy installation of a round fitting hole.

### POP UP

Pop Up is one of the smallest recessed spotlights in the world. It combines its small format with formal minimalism to achieve the perfect luminaire for projects that require the least possible space invasion. Pop Up is able to render a luminous flux that allows it to undertake accent lighting functions from the ceiling. It can be moved in practically all the degrees of freedom, as it rotates 355° and can tilt at 90° (unlike the majority of other recessables on the market). It can be easily and smoothly moved by hand.

### TWIST

Twist is a LED luminary, with adjustable beams, with remarkable performance and small format. Twist is ideal for applications that require maximum directionability and outstanding luminous flux.

### ALASKA 24V

Alaska is the contemporary reinterpretation of the technology and design of the classical incandescent filament light bulb. Alaska is composed of a solid optical glass sphere that symbolically represents the glass bulb of a traditional light bulb. Its compact body is one single piece that is manually lathed and polished like a piece of jewellery. Each one of the luminaires is traditionally produced, thus acquiring the value of an unrepeatable decorative work.

### TOP MICRO 24V

Top Micro 24V is miniaturized luminary that serves as a downlight for the Minimal Track system. Its reduced dimensions make Top the perfect candidate for projects where a discrete presence and a perfect integration are needed. It is a pure line and an architectural aesthetic design. Moreover, in terms of lighting performance, Top offers a conical distribution with two possible beam angles.

### LINE MICRO 24V

The very thin linear luminaire with diffused light that stands out for its small dimensions and discretion. This lighting solution allows Jokerlight's Minimal Track system to combine accent lighting with longitudinal general lighting where required.

### BLACK FOSTER MICRO 24V

Black Foster Micro 24V for Minimal Track, the most compact downlight with "The Invisible Black" effect. This linear luminaire has an excellent control of the light beam whose rays do not bathe the luminaire and are channelled directly to the exterior without touching the screen. Furthermore, its reduced design enables an absolutely perfect installation of the modules into systems.

### PLUS MICRO 24V

Plus Micro 24V is a projector for the Minimal Track system that offers the possibility of expanding or concentrating the beam light with just a smooth manual gesture. This characteristic makes Plus the ideal alternative for applications where the precision within the beam of light is essential.

### SIX 24V

Six XS 24V is a projector for the Minimal Track system that stands out for its lightness and elegance. Its body, disk looking, rounded shaped, encloses an innovative combination of reflector and lens. The combined action of both, allows Six to direct light rays with the maximum uniformity in a very small distance that, at the same time, has made possible its differential design-reduced and minimalist.

### iO MICRO 24V

iO Micro 24V is a LED spotlight miniaturised in a fixture that is so small that it fits on the palm of your hand. Designed for accent lighting applications, its small dimensions mean it can be fitted in display cabinets, shop windows and small places without generating an invasive presence on the scene. Created to be placed on the Minimal Track system, it offers all the features of concentrated LED spotlights with a minimalist and hyper-reduced design.

### FIT 24V

Fit 24V is a projector for the Minimal Track system. Cylindrical geometry and essential forms, it stands out for its minimalistic looking and its functionality as it can be orientated in any direction. The black perimeter around its mouth highlights its anti-glare vocation.

### SIX 48V

SIX 48V is a family of spotlights for track applications that stands out for its minimalistic presence and maximum light output. Available in four different sizes, its body encloses an innovative combination of reflector and lens which allows SIX to direct light with the maximum uniformity in a very small distance. SIX can be freely orientated in any direction.

### FIT 48V

FIT 48V is a cylindrical spotlight available in three sizes. A functional light that can be orientated in any direction. The black perimeter around its head and the optional honeycomb accessory reduces glare to a minimum.

### PLUS 48V

Plus 48V is a spotlight for low voltage tracklight applications that offers the possibility of expanding or concentrating the beam light with just a smooth manual gesture. This characteristic makes Plus the ideal alternative for applications where the precision within the beam of light is essential- like for example: museums, expositions, retail or accent lighting applications.

### iO 48V

iO 48V is an LED spotlight that fits in the palm of your hand. Designed to be used with our track, it offers all the features of the best spotlights, but with minimal and hyper-reduced size.

### BLACK FOSTER MICRO 48V

Black Foster Micro 48V, the most compact downlight with "The Invisible Black" effect. This linear luminaire has an excellent control of the light beam whose rays do not bathe the luminaire and are channelled directly to the exterior without touching the screen. Furthermore, its reduced design enables an absolutely perfect installation of the modules into systems.

### LINE 48V

Line 48V, is the line-luminaire of diffused light for 48 voltage tracklight applications. This lighting solution allows Jokerlight's 48V tracklight to combine accent lighting with longitudinal general lighting where required.

### BLACK FOSTER MICRO SURFACE

Black Foster has a very discrete presence in the interior design due to its reduced dimensions and its extremely low glare helping the piece not to gain much prominence. The downlight retains high levels of shielding, taking lighting comfort to another level as regards miniaturisation.

### BLACK FOSTER SURFACE

Black Foster Surface is the product that transfers the claimed effect 'The Invisible Black' to a linear system in surface application. Black Foster has a very discrete presence in the interior design due to its reduced dimensions and its extremely low glare helping the piece not to gain much prominence.

### TOP

Top is a miniaturized surface-mounted ceiling luminaire. Its compact design makes Top an ideal solution for installation in ceiling cavities and for projects where a discrete presence of the luminaire in the scene is desired. Formally Top presents itself as a design of pure lines and architectural aesthetics. In terms of lighting, Top offers a conical distribution with three available beam angles (flood, medium and spot).

**PUCK**

Puck is designed to undertake general lighting functions and, moreover, given its ultra-compact format, aims to conserve discretion in those places where it is impossible to recess the appliances in the ceiling. Puck's minimalist presence is formally summed up in a circular piece, entirely manufactured in aluminium.

**SKY**

Surface fitted, its design gives Sky the appearance of levitating a few centimeters away from the ceiling and so creates a special and unique effect. Able to provide major luminous flux, Sky can be fitted in projects with very high ceilings, but also stands out for its elegant aesthetics and finishes in smaller spaces.

**STRAM SURFACE**

Stram Surface is the surface downlight that conserves the aesthetics and lighting effects of Stram in spaces where it is impossible to recess in the ceiling. The distinctiveness of its bezel, along with a serene, impeccable presence, in a luminaire that can offer high luminous fluxes on a par with its minimalist beauty and elegance.

**iO SURFACE**

iO is a LED spotlight miniaturised in a fixture that is so small that it fits on the palm of your hand. Designed for accent lighting applications, its small dimensions mean it can be fitted in display cabinets, shop windows and small places without generating an invasive presence on the scene.

**ZEN TUBE SURFACE**

ZEN TUBE's cylindrical body with its adjustable spotlight makes this a perfect luminaire for surface applications. Its attractive texturized finish and chrome details will enhance your space which both style and performance.

### ART

Art is a minimalist and rational suspended luminaire that allows an ambitious range of composition possibilities. Individually, it transmits a sober look, but when combined – in an ordered or anarchic way – it is revealed as a sculptural piece of Art. This luminaire can offer ambient lighting in any kind of actual interior design project. Its versatility makes possible both, a discreet lighting over a table or an artistic composition to smoothly light up vertical opened spaces.

### HOLLY

HOLLY is a suspension luminaire for accent lighting applications. With a machined aluminium body and a simple yet elegant design HOLLY is made to the highest standards and it's a perfect fit for a decorative installation. Holly is designed to optimize the light beam and to obtain an elevated illuminance in the area where installed.

### SPIN

Reduced dimensions, clear lines and a mechanized geometry combined in a pendant luminaire for accent lighting. Its ultra-thin cable gives Spin a sensation of aerial floatability. Can be fitted individually or configured in a group.

### SALT

High Bay light fitting performance combined with the design of a unique decorative piece. Salt integrates driver and heat dissipation into the design of the fitting itself and achieves on the one hand an excellent thermal management and on the other hand the freedom to hang the fixture at any desired height. And to prevent glare, Salt disposes of a diffuser covering the light source. The Salt PC version with its transparent lampshade emits light also laterally, providing ambient light. Ideal thus also for residential and ample spaces.

### BRIGIT

BRIGIT is a suspended luminaire with a unique personality. Combining the downlight with a colored shade producing ambient light in your choice of three color options, BRIGIT is an ideal fixture to highlight any interior design space with its presence.

### BLACK FOSTER SUSPENSION

Black Foster Suspension is the product that transfers the claimed effect 'The Invisible Black' to a linear suspended system. It is composed by a series of modules which combine light emissions with dark segments. Nevertheless, whether it is On or Off, Black Foster always preserves the aesthetic of a perfect dark line.

### BLACK FOSTER CUSTOM MODULE

Black Foster Custom Module enables the redistribution of its combinable modules once the system is installed. Light-emitting and blind segments can be repositioned as the space changes thanks to the freedom allowed by its adapter. Furthermore, the Black Foster Custom Module system features a Fit 27 projector module for integrated accent lighting.

### BLACK FOSTER MICRO CUSTOM

Black Foster Micro Custom Surface opens a new paradigm of miniaturisation in the linear and customisable system which integrates 'The Invisible Black' effect lighting. Like its big brother, the Micro surface version has complete mobility and flexibility of its modules within the already installed profile.

### REC

REC is an LED luminaire ideal for indirect lighting applications. A perfect fit for projects that give priority to the comfort of indirect light but also require a high volume of lumens. REC is a finest cuboid with pure lines and a minimalist design.
