

Artience

About Artience

Artience Lighting, is fascinated with creation of unique and exquisite luminaires. Not only are they beauty by design, their fixtures will enhance a space by providing light, improving health, the environment and general well-being. Artience Lighting has a goal to develop, design and produce lighting fixtures that can actually help people learn better, be more productive, sleep more soundly and live healthier. Their dedication does not stop there, they also have a full line of sound control fixtures.

"Why just make a light when you can make art?"
