About Fotons Lighting

Fotons Lighting was founded in 2014 to provide contemporary architectural and industrial luminaires that are innovative, elegant, and perform to the highest standards. Fotons Lighting prides itself on its ability to provide clients with high-quality LED fixtures while staying current with evolving architectural design trends. The company continues to deliver innovative and well-crafted lighting products that enhance the design and functionality of your projects.

Easy to specify, easy to source, easy to install!

Fotons Lighting will complement your project in every way!
