

# Lightly

## About Lightly

Lightly is a Pennsylvania based manufacturer that brings you bioderived wood fixtures, available in an assortment of finishes. Their goal is to provide you with sustainable, high quality products, that offer the beauty of real wood without the use of harsh chemicals. Lightly only utilizes natural wood, wool and hemp in their housings, they do not use any metal, plastics or glass. This makes them red-list free, therefore accelerating the sustainability movement. Lightly fixtures are crafted from North American wood, offering an aesthetically pleasing and customizable solution to meet your project requirements.
