

VISIONZ
**Of Custom
Lighting**

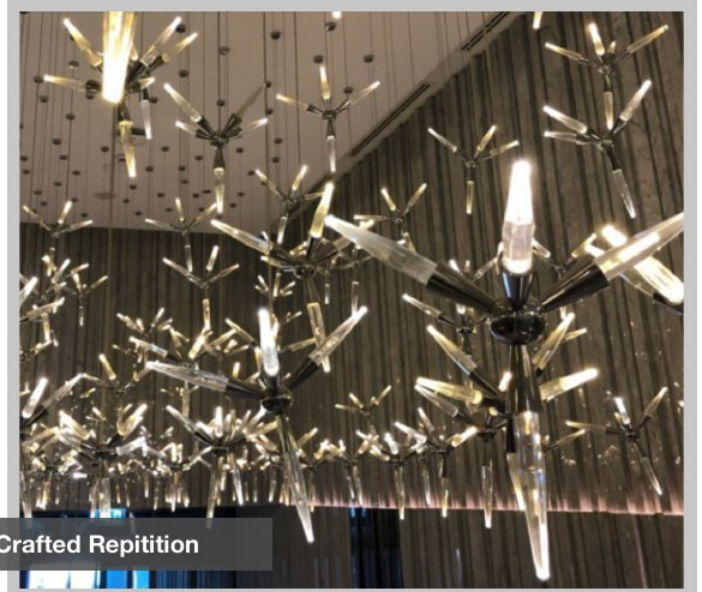

**not standard.
not random.
made to carry the
room.**

Visionz connects architects and designers to manufacturers that can create lighting as a spatial object: scaled, finished, engineered, and selected for the experience the project is trying to create.

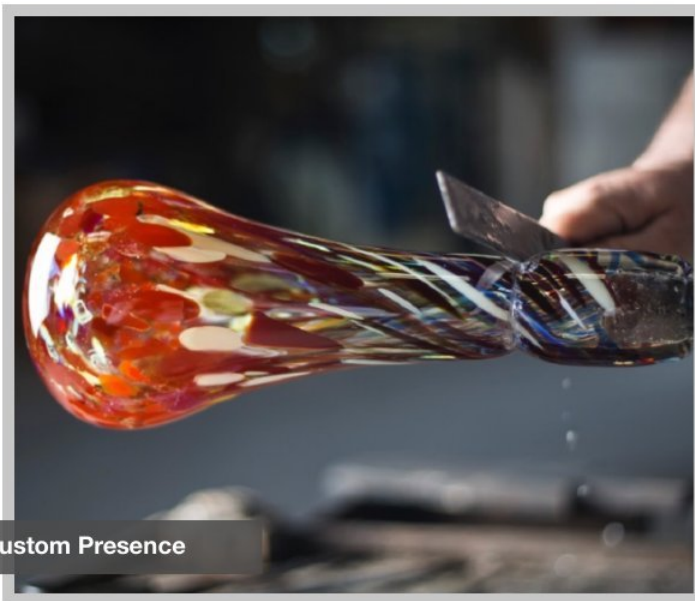

Byzantium Decorative Hospitality Volume

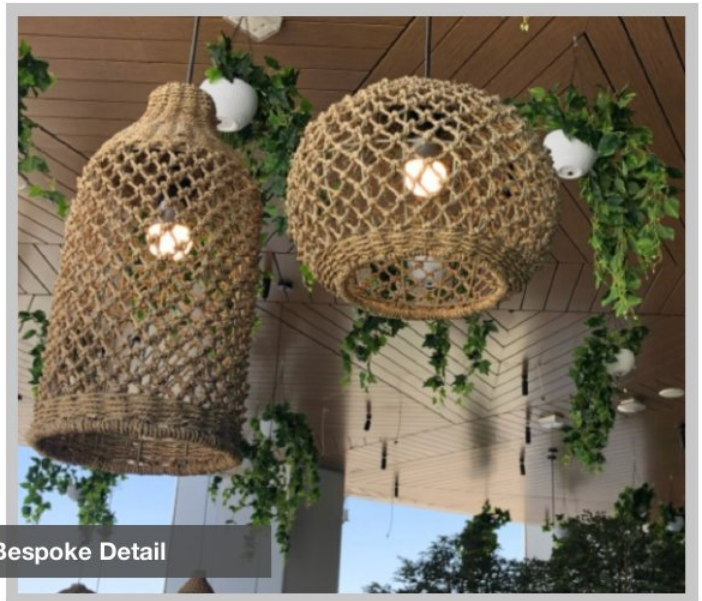

Large Form Sparkle

Crafted Repetition

Custom Presence

Bespoke Detail

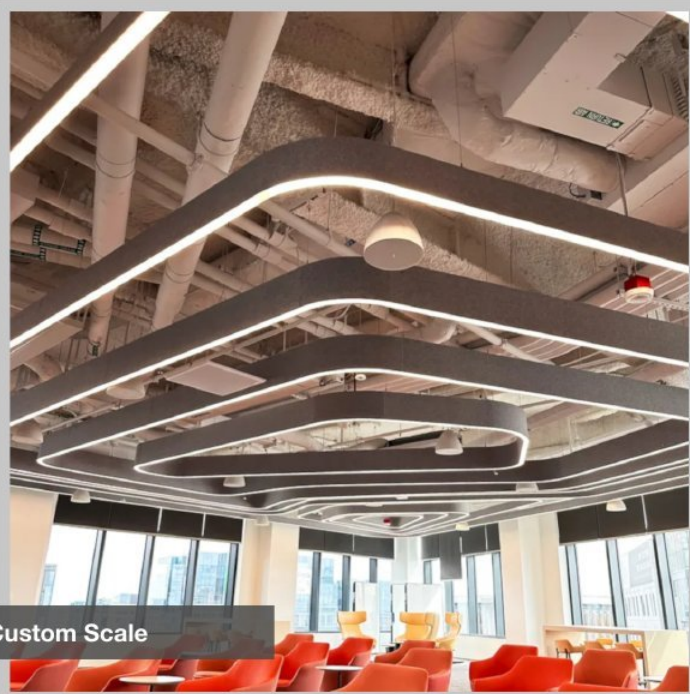

HOSPITALITY SCALE

Statement fixtures at room scale

Large decorative features for lobbies, restaurants, multifamily amenities, hotels, and guest-facing spaces where lighting becomes part of the architecture.

Lumos / Lumarra

Built Around The Concept

Custom Scale

A New Look

Formed Presence

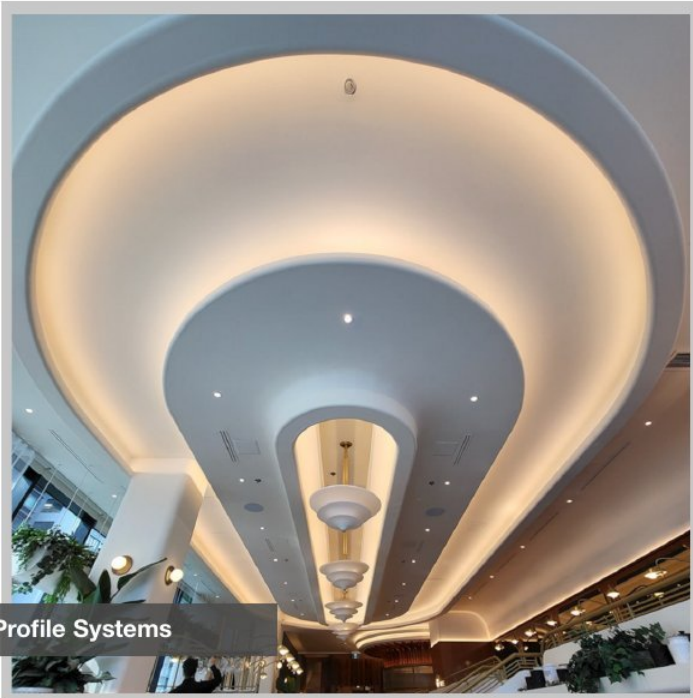

Modified Site Forms

FABRICATED CUSTOM FORMS

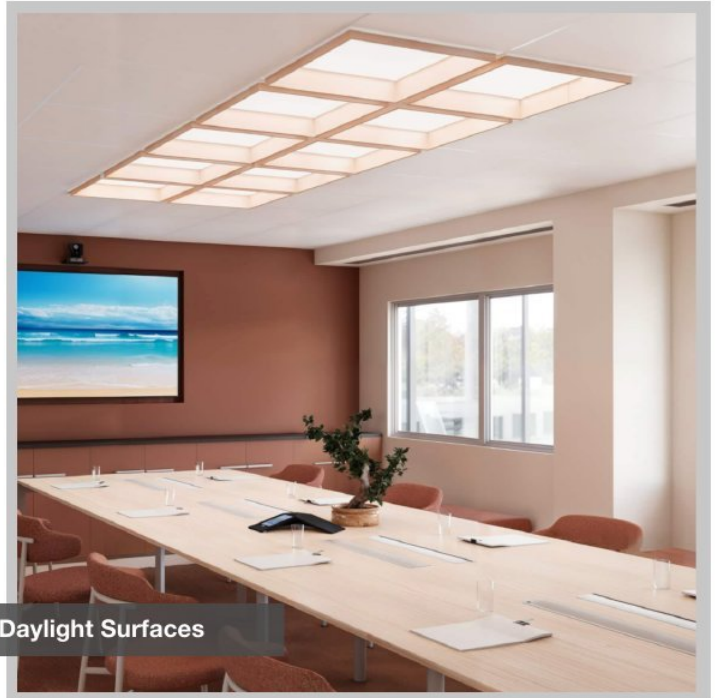

When the fixture is drawn for the room

Custom work can follow a ceiling condition, echo a brand environment, or become the visual anchor of a dining, lobby, retail, or workplace experience.

Linear, Curved, Technical Architectural Systems

Integrated Systems

DAYLIGHT AS A FEATURE

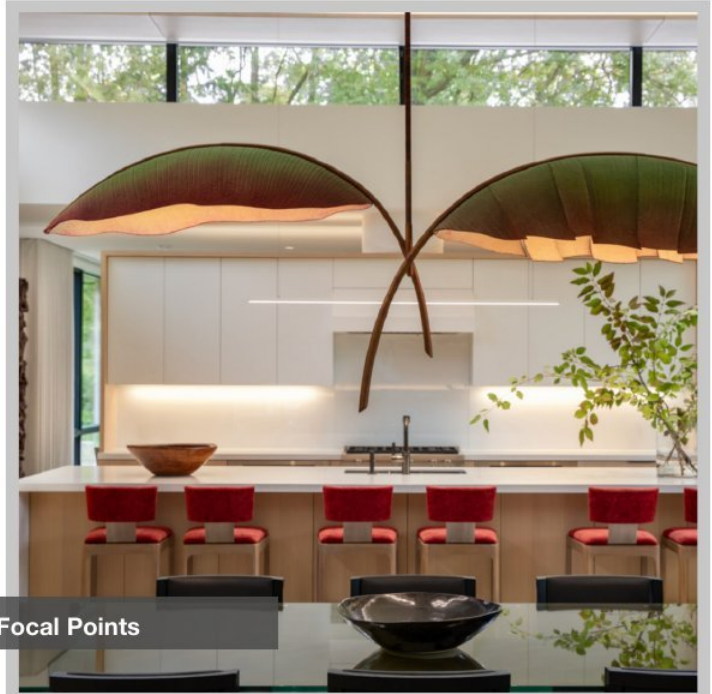

Light surfaces that change the room

For windowless or light-limited interiors, luminous surfaces can create the perception of daylight, view, and spatial relief.

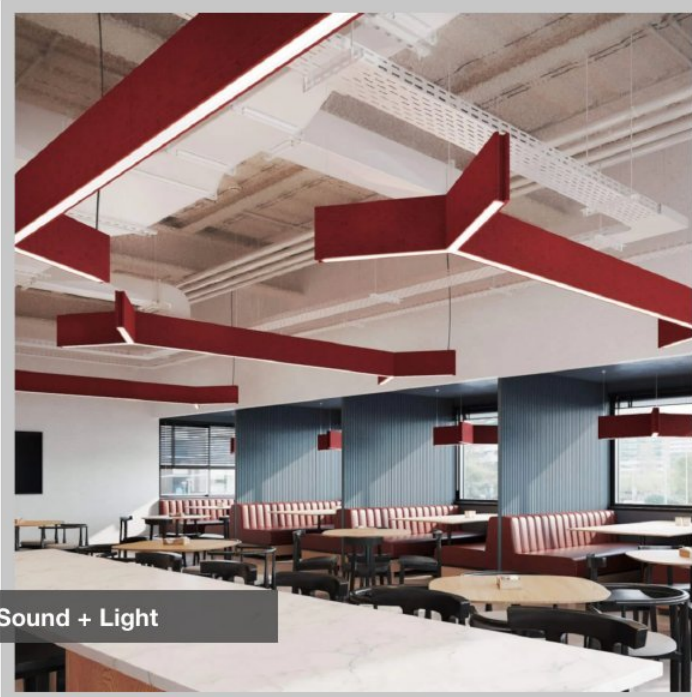

Sculptural And Material-Led Statements

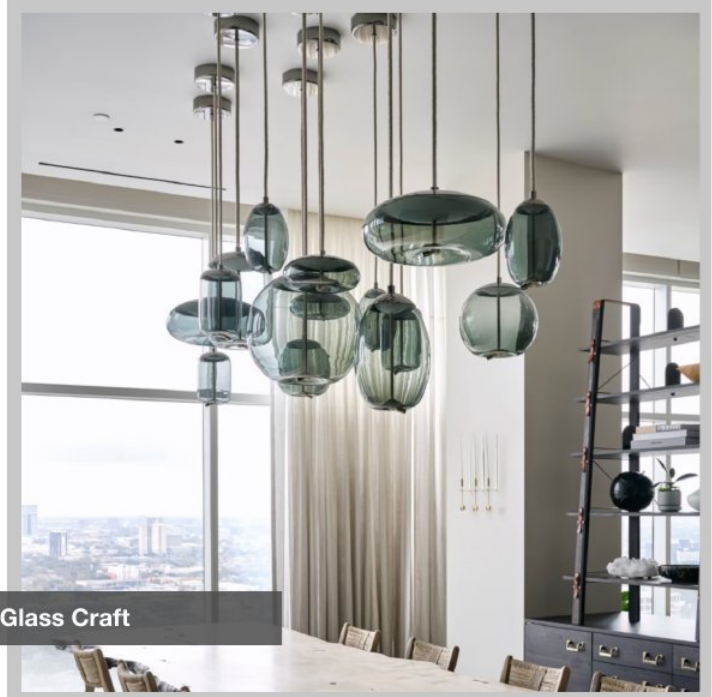

Statement Pieces

Sound + Light

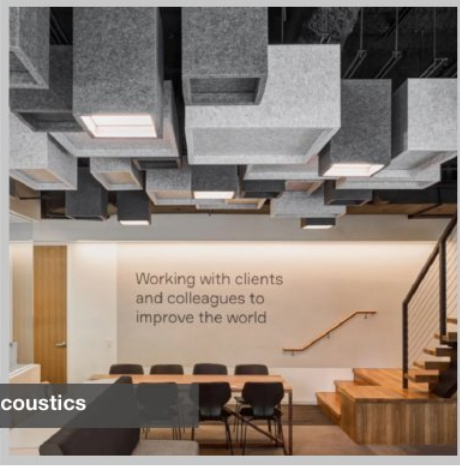

Glass Craft

ACOUSTIC LIGHT

Shape the sound. Shape the ceiling.

Acoustic lighting lets the fixture become an overhead field: sound control, rhythm, color, and illumination in one architectural gesture.
