Downlights

Number 8 Lighting

The 200 Series recessed LED downlight for NEW CONSTRUCTION or REMODEL applications delivers performance, flexibility, and value. Available options include: 200-HD Adjustable Accent and Adjustable Wall Wash, 201/201-RM Fixed, 202/202-RM Adjustable Accent, and 203/203-RM Wall Wash. Multiple static white and warm dim color temperature, optic, and integral or remote driver options provide ultimate flexibility. Architectural quality flanged and flangeless trim options in round and square feature minimal 1-7/8", 2-1/4", and 2-3/4" apertures. Four designer finish options fit all types of ceiling environments

JokerLight

Swap is a family of recessed LED spots that comes in 2 sizes (M, L) and two light beam directions (symmetrical or asymmetrical). The Swap range offers a very extensive variety of colour options, luminous flux, colour temperatures, chromatic reproduction, sealing and dimming protocols. Minimalist design and easy fitting make it an unbeatable offer.

Downlights

Lucent Lighting

Pinhole 4.25" fixed downlight complete with 1.73" aperture and aluminium installation kit with overlap flange for finished ceilings. Available in both white or black finish as standard that accomodates a wide choice of light sources including Lucent's LED50 ONE family of modules, Xicato & GU10 LED lamps.

LumenTruss

The Omega Pro downlight combines style with power. Bringing a vast collection of reflectors and filters to the configuration, this downlight gives you full control of the lighting effect to integrate with the architecture. This downlight solution is adapted to meet the needs of modern architecture for a discreet look and sleek design.

Track Systems

JokerLight

Track Systems

Modular Lighting

Pista Track 48V is our slender magnetic LED track lighting system that lets you play with general and accent lighting. Loaded with choices of spots, pendant lighting, uplight and even a Night Light, Pista Track 48V easily travels along the wall and ceiling, from one space to the next. Its endless configurations with minimalistic designs, colors and all types of lighting, will brighten up any space and mood.

Eklipse Lighting

Eklipse has designed the whole track system for being as miniature as possible and invisible once integrates into the shelf. Thanks to its magnetic connectivity, placing the lighting fixtures is a child's play and safe. Vertical, horizontal or sloping surface, recessed or surface mounted, it's needless to say the three luminaires PIXIS, PIXIS FIVE and MILI slide freely all along and can be repositioned unrestrictedly to create new ambiance easily.

Kitchen Pendants

Modular Lighting

Create an intimate setting with the stylish light line of SLD35 Suspended. Make an impression in hospitality and residential settings with its anodised colour finishes. Champagne, bronze and silver bronze.

TRAPEZE

Kitchen Pendants

JokerLight

Art is a minimalist and rational suspended luminary that allows an ambitious range of composition possibilities. Individually, it transmits a sober look, but when combined – in an ordered or anarchic way – it is revealed as a sculptural piece of Art. This luminary can offer ambient lighting in any kind of actual interior design project. Its versatility makes possible both, a discreet lighting over a table or an artistic composition to smoothly light up vertical opened spaces.

Pelle Designs

The inspiration behind CHANNEL was a need for a ceiling fixture that could properly illuminate table surfaces, as well as brighten overall rooms. Channel's design is an elegant, but powerful lighting solution, that could be repeated throughout a larger space.

The Channel's all-aluminum body holds a pair of upward-facing, as well as a pair of downward-directed beams, for a total of four lighting components. The sleek aluminum body is suspended by two thin steel cables that double as power conduits.

Wall Sconces

Modular Lighting

SLD35 Surface easily highlights architectural elements on walls, in any direction. Make an impression in hospitality and residential settings with its anodized color finishes. Champagne, bronze and silver bronze.

Articolo

Chandelier

Pelle Designs

Based on an original design first conceived in 2008, the Bubble Chandelier is available in a series of twelve distinctive variations. Each chandelier is handcrafted to order in PELLE's Brooklyn-based studio. The airy bubbles are anchored by precision-tooled hardware, finished to a fine quality. The light's decorative coiling, available in natural cotton and leather cord, is meticulously done by a practiced hand.

Lure transforms a flower's transient beauty into a lasting light. In this fixture, a cast paper flower is spotlighted by a suspended LED light source. Held by a slender brass arc, the light shines brightly on a blossom built of hand-sculpted petals, displaying texture, structure, and delicacy. The white flower reflects light, providing a source of soft illumination.

Bomma

Handcrafted crystal lighting from Bomma Constellation frees creators, architects and designers to transform interiors. Project your boldest creative visions into space – from smaller compositions to immense constellations. Choose among six original collections: Metamorphosis, Pyrite, Dark & Bright Star, Lens, Soap Mini or Mussels. Like distant stars, these seemingly small lighted objects are unique stand-alone and even stronger in groups. Each single pendant is remarkable in its aesthetics and quality, design and craft.

*project your unique vision
into space and create your
own bomma constellation*

Shower Accent Lighting

LumenTruss

The Neon Flex from Lumentruss, is an ultraFlex flexible sheath that accommodates the LED strip tape and replaces both the LED profile and lens. Made of flexible silicone, the Neon Flex is a glare-free lighting solution and provides continuous and uniform linear lighting without any pixelation, in white or RGB. This flexible lighting solution bends along curved surfaces to follow the contours of objects or elements of your décor and bring the light out through walls, ceilings, or millwork.

Bathroom Options

JokerLight

Black Foster Micro is a feat of engineering which brings the acclaimed "The Invisible Black" effect to a hyper-reduced light. Its tiny size and thin trim offer a "trimless visual" aesthetic which combines with its almost imperceptible presence as a result of its compact dimensions. Black Foster Micro is designed for general or accent lighting and can be used in projects that seek ceiling lighting that plays a minimal role.

JokerLight

Puck is designed to undertake general lighting functions and, moreover, given its ultra-compact format, aims to conserve discretion in those places where it is impossible to recess the appliances in the ceiling. Puck's minimalist presence is formally summed up in a circular piece, entirely manufactured in aluminium.
