## 1100 SERIES KITS

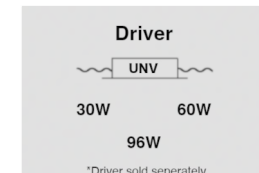

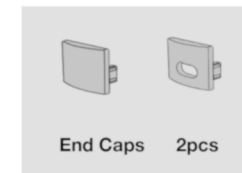

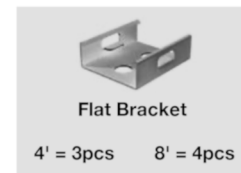

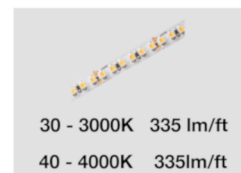

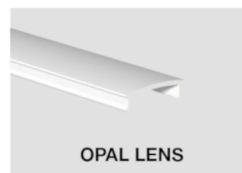

This profile is the thinnest of the 1000 series being only 6mm thick and 18.7mm wide and is compatible with most of our LED strips. Perfect for tight spots, it will be very discreet and will stand out.

## 1200 SERIES KITS

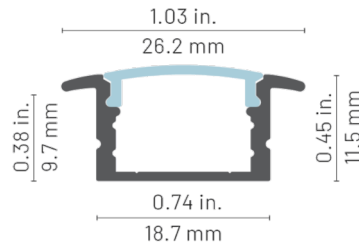

The 1200 profile is designed to meet the daily needs of linear accent lighting. The 1200 profile offers a wide selection of lenses, light outputs, and color options to produce a uniform linear light housed within a channel of extruded aluminum. This compact profile is surface mounted into coves, behind floating walls and ceilings, under cabinets, and in many other indirect applications.

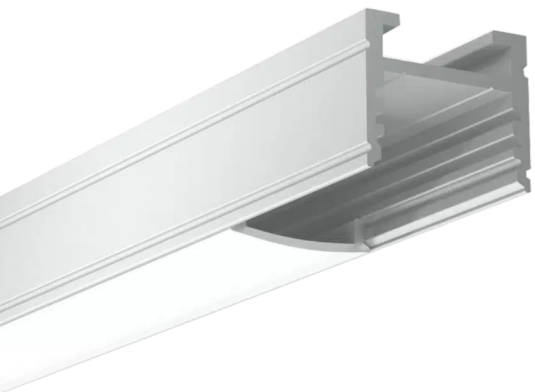

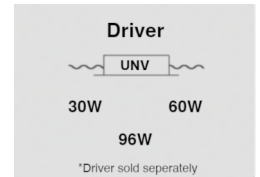

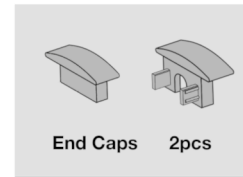

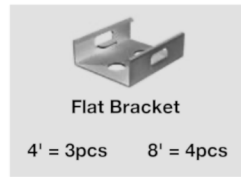

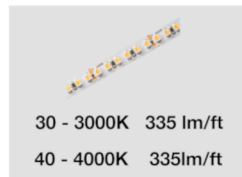

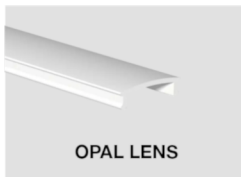

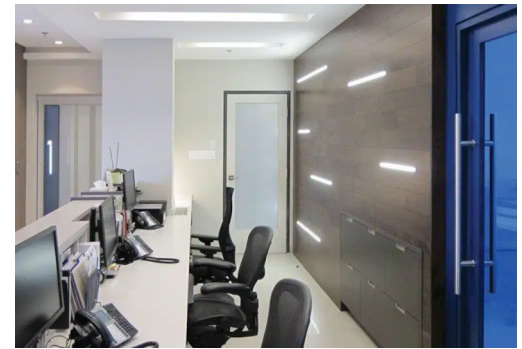

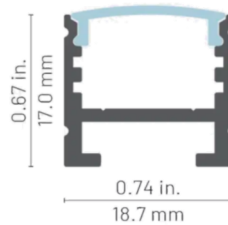

## 1300 SERIES KITS

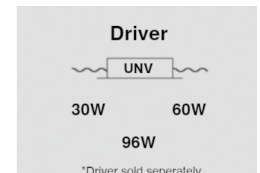

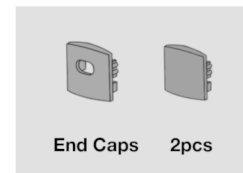

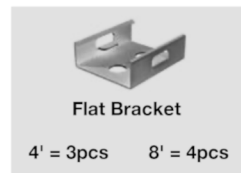

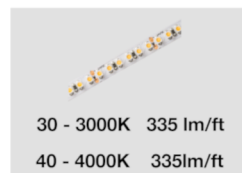

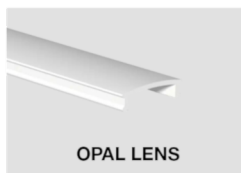

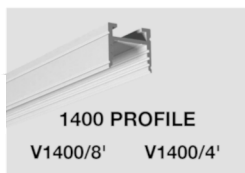

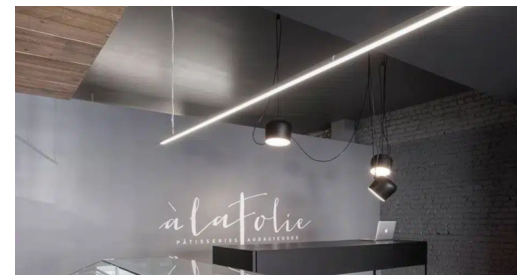

The 1300 profile is designed for recessed linear lighting applications. The 1300 profile offers a wide selection of lenses, light outputs, and color options to produce a uniform linear light housed within a channel of extruded aluminum. The flanged edges of the extrusion add a decorative trim for a discreet and clean recessed appearance.

## 1400 SERIES KITS

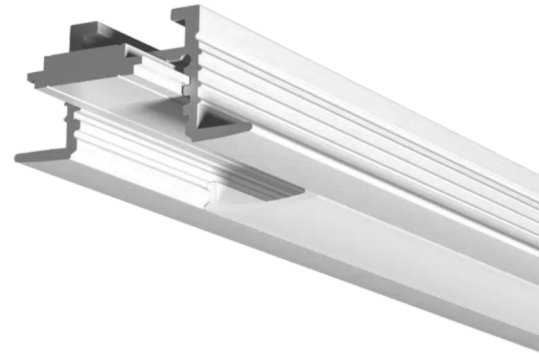

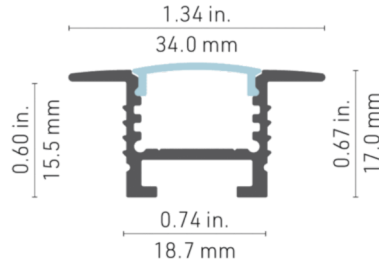

The 1400 profile is designed to be sleek and versatile through its many permutations. The 1400 profile offers a wide selection of lenses, light outputs, and color options to produce a uniform linear light housed within a channel of extruded aluminum. With a wide range of installations, select from a minimalist pendant to a surface mounted channel, or to being recessed within a flangeless drywall system.

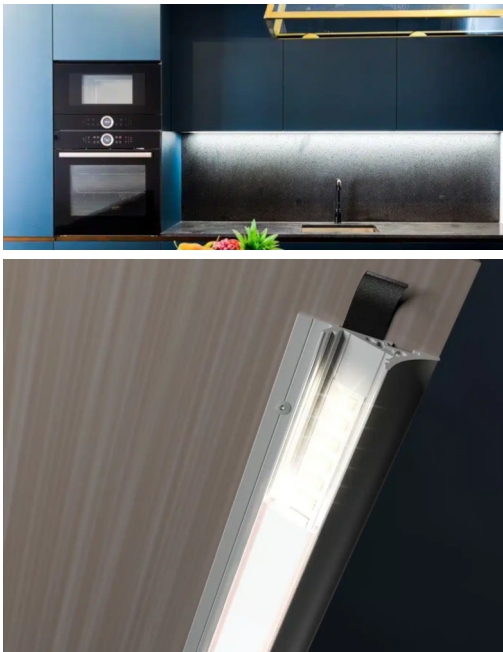

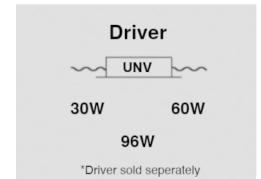

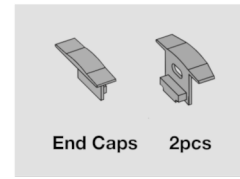

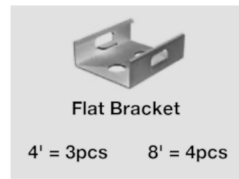

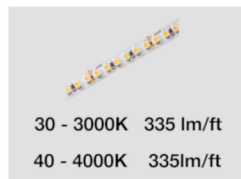

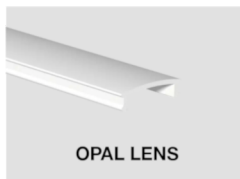

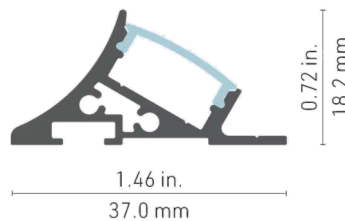

## 1500 SERIES KITS

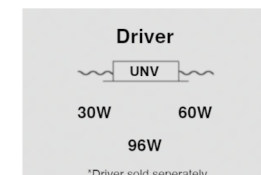

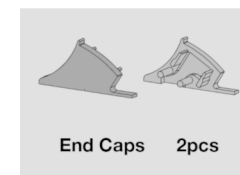

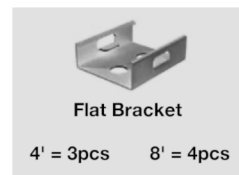

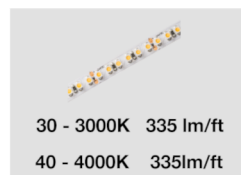

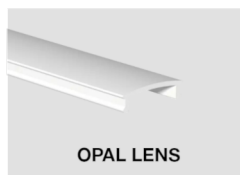

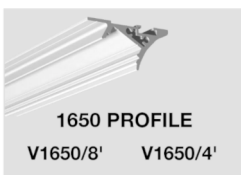

The 1500 profile is designed for recessed linear lighting applications. The support rail accommodates type B joiners to connect multiple sections and to go around corners and from wall to ceiling. The 1500 profile offers a wide selection of lenses, light outputs, and color options to produce a uniform linear light housed within a channel of extruded aluminum. The flanged edges add a decorative trim and can be easily installed with a support bracket.

## 1650 SERIES KITS

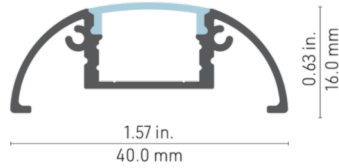

The 1650 profile is your best choice for product display. It offers lighting at a 30-degree angle, so you can cover all of the items on your shelves or racks and bring them centerstage. The smooth curved profile adds an extra accent in style. Use it with a clear lens to maximize the light output, or with an Optiflex or Opal lens for no hot spots from any angle\*.

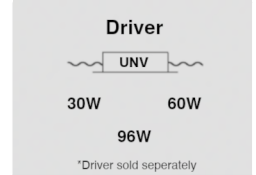

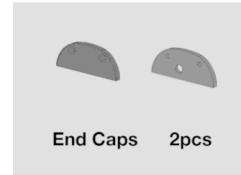

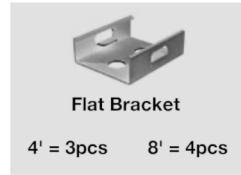

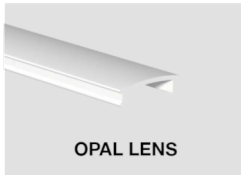

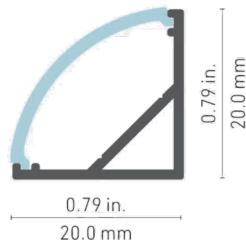

## 1690 SERIES KITS

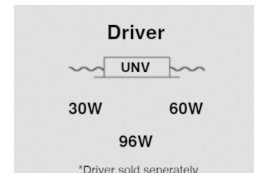

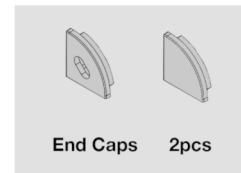

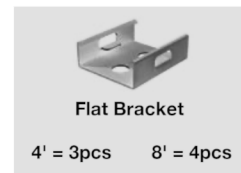

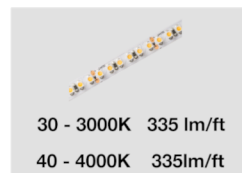

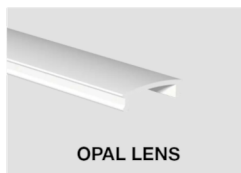

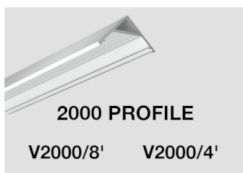

Great for under cabinet lighting. A rounded profile especially designed to conceal mounting hardware and wires, the 1690 can serve well for under cabinet lighting, or on any other surface as a mural fixture.

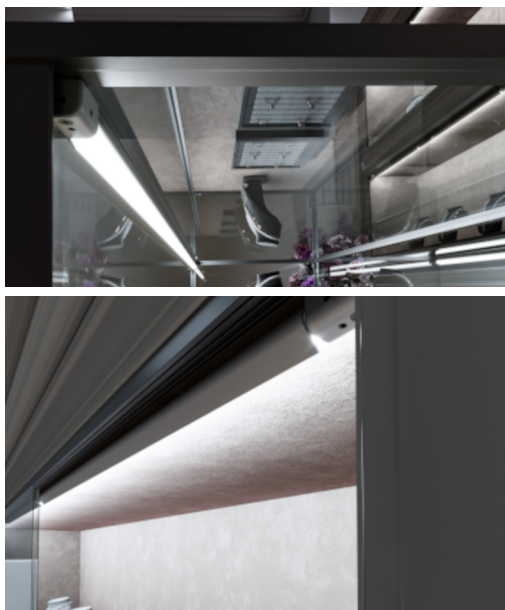

## 2000 SERIES KITS

The 2000 is designed to allow extra lighting angles. The profile can be installed to project at 30 or 60 degrees, two angles for lighting extra deep or high scenes, to bring out the finest details, without hot spots.

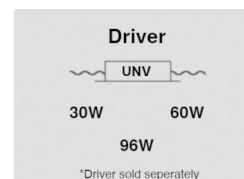

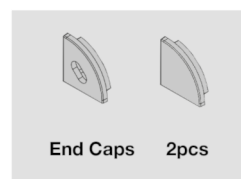

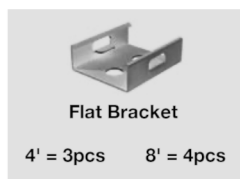

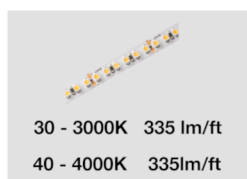

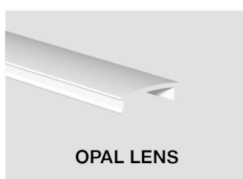

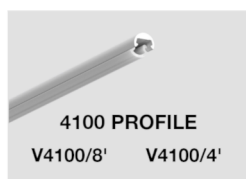

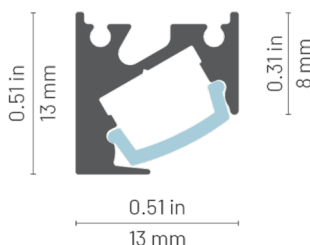

## 4100 SERIES KITS

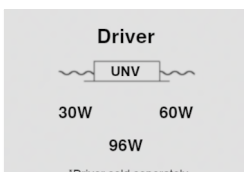

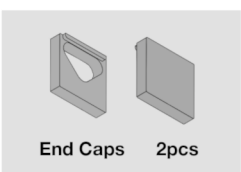

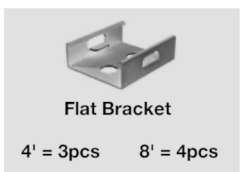

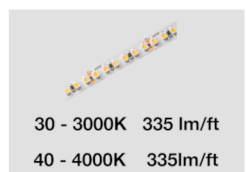

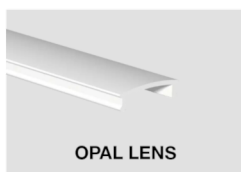

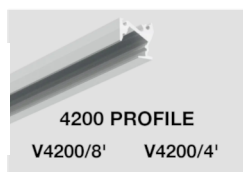

A retail lighting solution for perfectly lit display cases. The compact 4100 profile helps you focus light where it is most needed. On the products!  
Ideal for highlighting jewelry cases and other prized possessions.

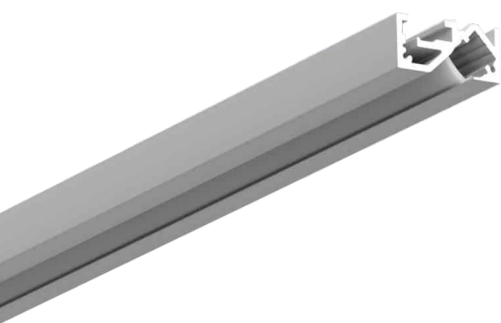

## 4200 SERIES KITS

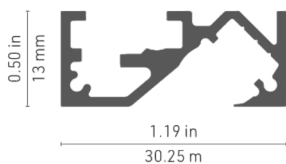

Our range of ultra-compact profiles has been expanded! The 4200 profile provides accent lighting at an angle of 30° to highlight products on shelves or to cut out the underside of cabinets. A notch on the underside completely conceals the TR64 mounting wire, giving the luminaire an even more aesthetic look. Ideal for commercial or residential applications.

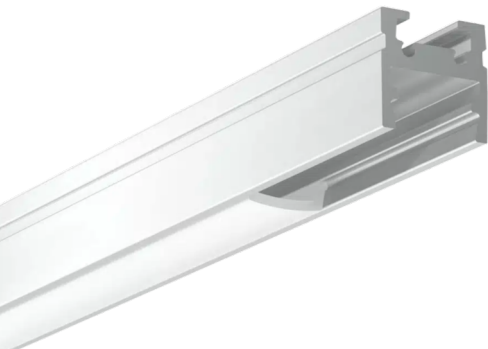

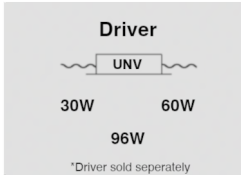

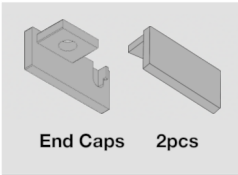

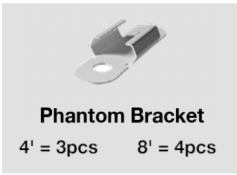

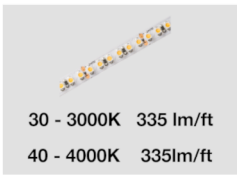

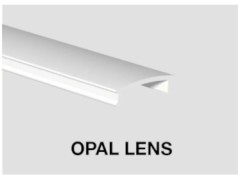

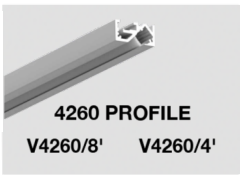

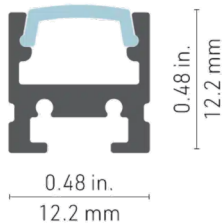

# 4260 SERIES KITS

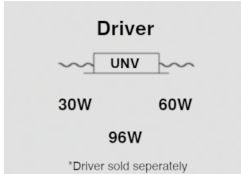

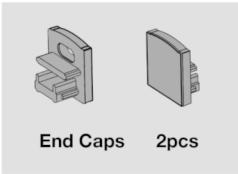

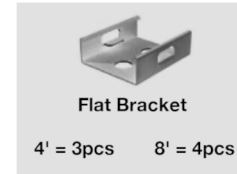

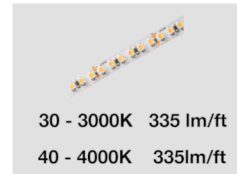

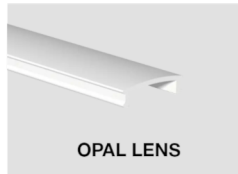

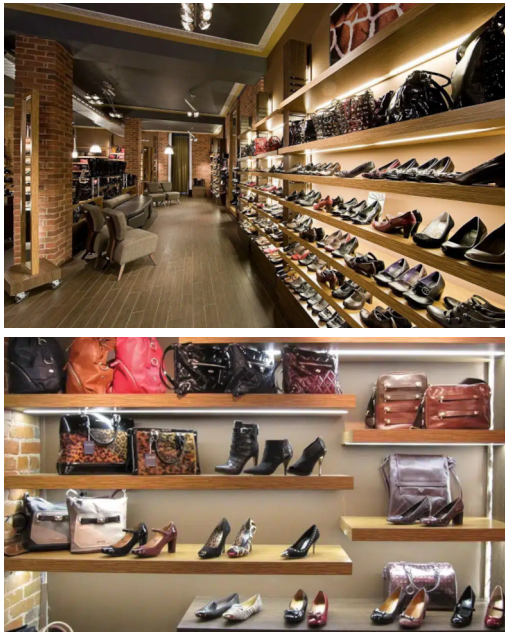

A new compact profile has been added to this thin series! Profile 4260 provides accent lighting at an angle of 53° to highlight products on shelves or to cut out the underside of cabinets. Even better, the phantom brackets perfectly conceal the surface installation. Ideal for commercial or residential applications.

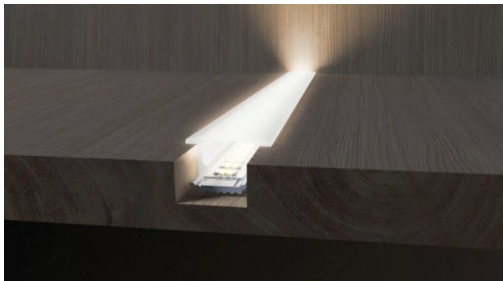

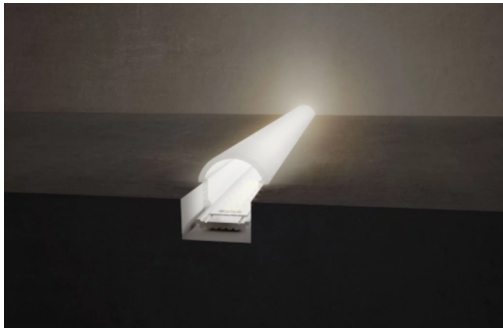

# 4400 SERIES KITS

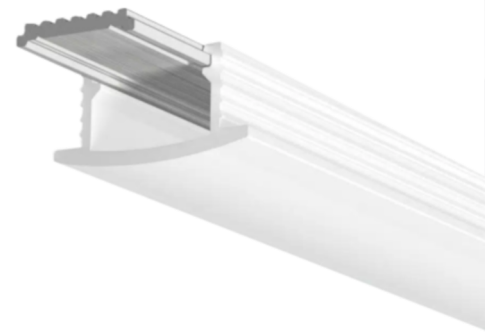

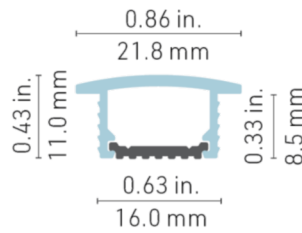

One of the smallest on the market, guaranteed to be discreet! The 4400 profile is reduced to a minimum with its size of less than half an inch, while accepting a good range of LED strips1 . (1) Accepts LED strips up to 8mm wide..

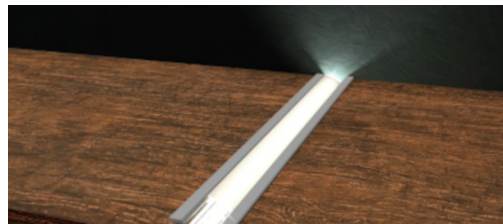

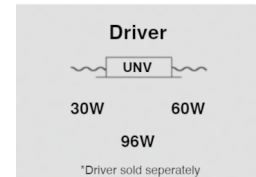

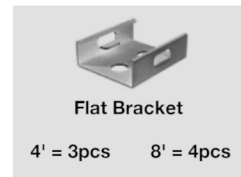

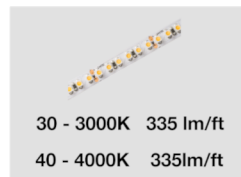

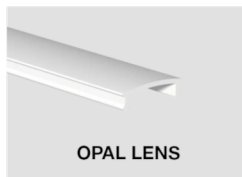

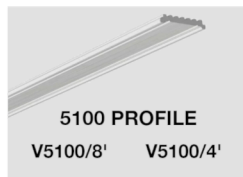

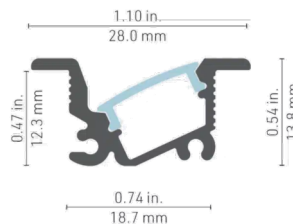

## 5100 SERIES KITS

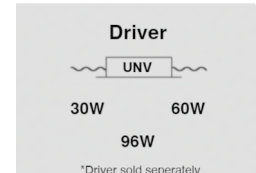

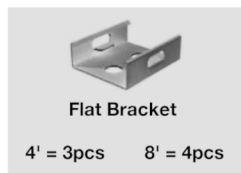

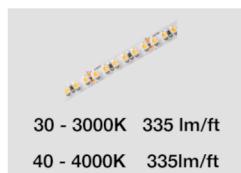

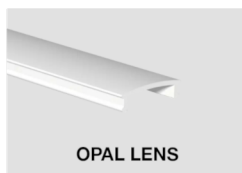

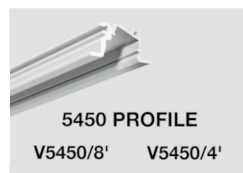

The 5100 consists of an aluminum heatsink base inserted into a flexible recessed lens with gripping sides. It allows for a very simple installation, with the assembly inserted into the recess and staying in place due to the gripping ribbed lens sides. The 5/8" wide and 3/8" deep recess is a direct fit for North American cabinetry, closet, or mural applications, besides being economical and providing lighting without hot spots.

## 5450 SERIES KITS

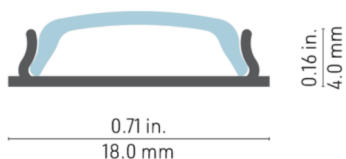

The 5450 is a compact recessed LED lighting profile for cabinetry and other wood furnishing projects, directing the light beam at a 25-degree angle from the normal, which allows you to light the cabinet contents from the edge.

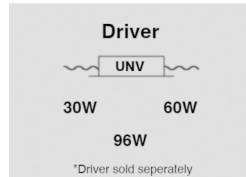

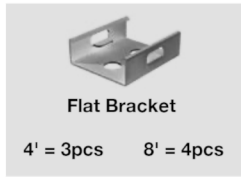

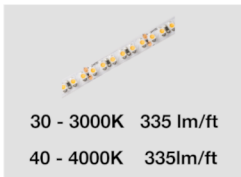

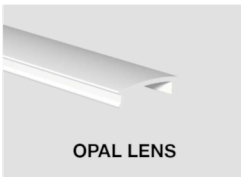

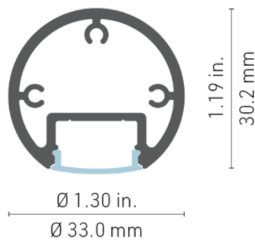

# 5560 SERIES KITS

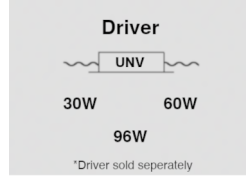

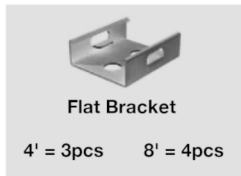

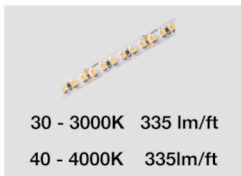

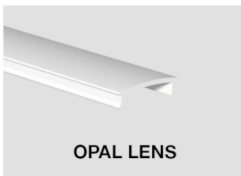

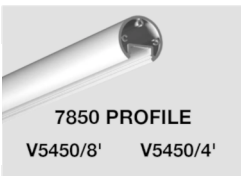

The 5560 profile allows integrating linear LED lighting on curved or uneven surfaces. Its low profile (1/5" including lens), and a thickness of less than 1/32" (0.75mm), allows for effortless bending and installation using plain mounting tape or screws. The opal lens will provide a diffused light effect without harsh dots.

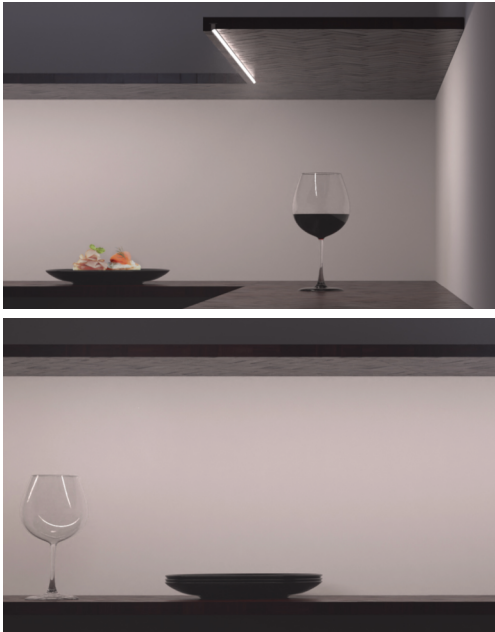

# 7850 SERIES KITS

The 7850 profile is designed as an illuminated standard closet rod for an added layer of light within high-end closets and wardrobes. The 7850 series offers a wide selection of lenses, mountings, and LED options to produce a uniform linear light housed within a channel of extruded aluminum and finished with end caps..

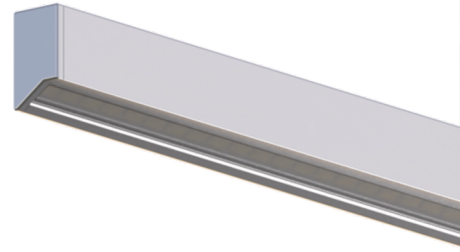

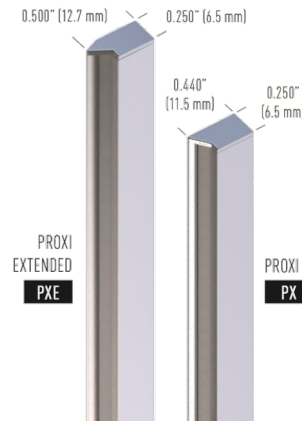

# Ultra Performance Millwork Lighting

**PROXI**

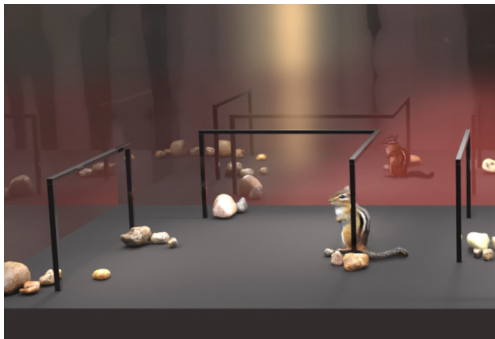

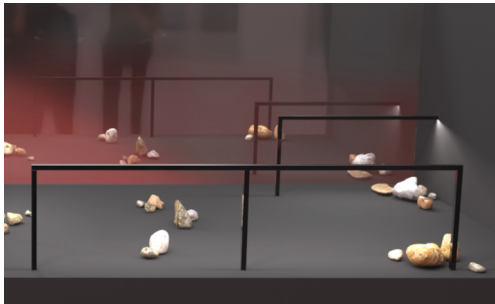

**EKLIPSE**  
ARCHITECTURAL LIGHTING

## NIXE Family

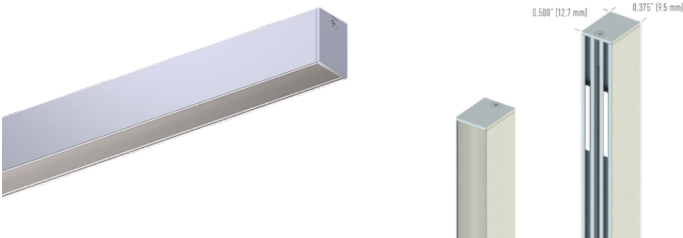

**EKLIPSE**  
ARCHITECTURAL LIGHTING

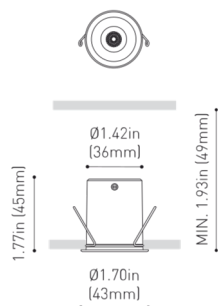

### NIXE FLEX

NIXE FLEX linear LED luminaire is one of the smallest on the market, measuring only 3/8 inch – barely the width of a fountain pen. This superior curvable linear LED bears the same light features and performances as its straight counterpart, NIXE.

### NIXE

NIXE linear LED luminaire is one of the smallest on the market, measuring only 3/8 inch – barely the width of a fountain pen. It integrates perfectly into its environment and its design, without any apparent trims or edges, makes it become almost invisible. This benefits aesthetic as well as functional values, keeping the surface even and diffusing light without interruption..

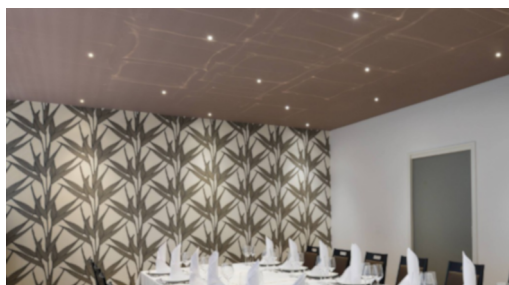

### SHOT LIGHT

**JOKERLIGHT**

A luminaire conceived to be a small and discreet point of light in the ceiling, that hides the light source to offer maximum visual comfort. Specifically designed with an anti-glare screen and a micro-reflector, SHOT LIGHT generates a perfectly defined light beam.

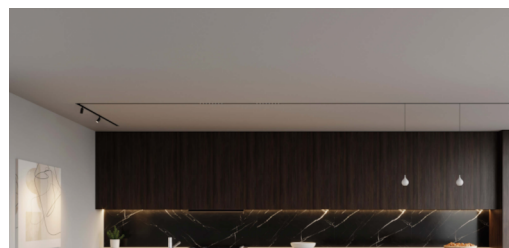

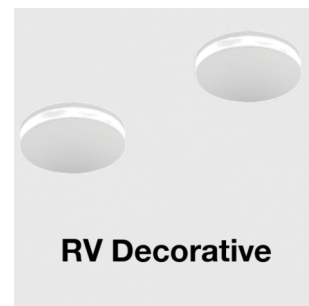

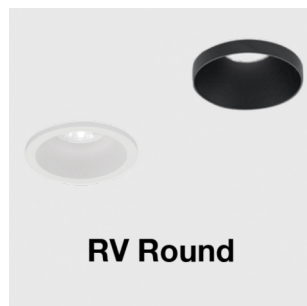

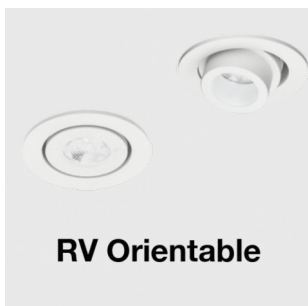

# Specialty Fixtures

## FLEA ✨ intra lighting

The Flea, represent a low light level range that has many application possibilities, like a special atmosphere in wellness centers, accent on shelves, night illumination and many more.

They are small and this is precisely their biggest advantage.

## ATOS ✨ intra lighting

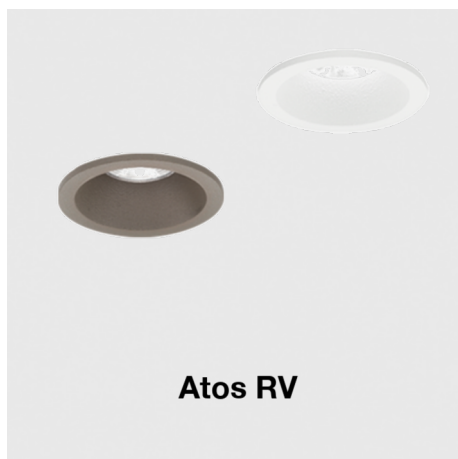

Atos is small but powerful. Due to its highly efficient reflector, it boasts impressive light quality, providing pleasant accent illumination with low glare. The spot is available in different colours and versions to easily fit into any space.
